

## ABOUT THE AARDVARK

Located in the basement of The Norfolk Hotel in Fremantle, Western Australia, The Aardvark is about good music, good times and good people.

Music has been in the venue's veins for over 15 years. Acts like Tame Impala, Pond, Sharon Jones & The Dap Kings, John Butler Trio, The Presets and many others have graced the stage over that time.

The Aardvark is the latest incarnation of the space and we are focussed on making sure everyone has a good time, especially the artists. We believe in great hospitality with hot meals, free parking and great accommodation upstairs.
